2. Turn out barrel and aim at the adjustment Hop-up hole, you can see the adjustment Hop-up screw inside the hole, use a screw driver to tight or loosen the Hop-up screw.

## 8 How to use a cleaning rod

### Maintenance

#### 1 How to use a cleaning rod

Cut a cotton cloth to the size as shown above and insert one end into the hole in the rod. (Adjust the length of cloth for smooth entry into the barrel.)

CAUTION: Always begin the maintenance by returning the hop up adjustment lever to NORMAL.

CAUTION: The chamber is a precision component. Never use any used BB pellets.

\* The hop-up performance may become unstable for 80 to 70 pellets after maintenance.

- 1 Spray silicone oil for 0.5 to 1 sec in the pellet entrance, then fire 40 to 50 pellets to make the magazine stable.
- 2 Clean the oil from the chamber using the cleaning rod (with cotton) to complete the maintenance.

CAUTION: Always begin the maintenance by returning the hop up adjustment lever to Normal.

Never use any used BB pellets

Using new 6mm BB pellet is a must

Please don't use any BB pellet which is not completed.

Please don't use any broken BB pellet.

Please don't use any BB pellet which diameter exceeds 6 mm

# 9 WARNING
