3 Unpacking assembly

1. Insert the carry handle into the slots in the both side. Lock both sides with 4 screws (2 for each side).

2. Connect the 3 wires with the same color.
   (Optional) Connect the 2 tubes with the same connectors.

3. Connect the wires and tubes and push grip to fit body. Aim to 4 screw holes and tighten 4 screws M5*12 by screwdriver.

4 How to insert battery

1. Press the 2 buttons and pull out the cap.

2. Install a battery to battery storage and close the cap.
5 Gas installation

1. Push the button in the direction of the arrow and open the cap.

2. Insert the gas bottle to the button and tighten clockwise quickly.

6 Magazine Attachment/Detachment Procedure

1. Open the lid counterclockwise and take it out.

2. Load BBS. Do not load over the warning hole, otherwise the lid can't be closed.

3. Press the spring into the tube and insert it into the slot and tighten clockwise.
7 How to adjust the Hop-up system

1. Pull out the pin and open the cover.

2. Turn out barrel and aim at the adjustment Hop-up hole, you can see the adjustment Hou-up screw inside the hole, use a screwdriver to tighten or loosen the Hop-up screw.

8 How to use a cleaning rod

Maintenance

1. How to use a cleaning rod

Cut a cotton cloth to the size as shown above and insert one end into the hole in the rod. (Adjust the length of cloth for smooth entry into the barrel.)

**CAUTION:** Always begin the maintenance by returning the hop-up adjustment lever to NORMAL.

**CAUTION:** The chamber is a precision component. Never use any used BB pellets.

*1 The hop-up performance may become unstable for 60 to 70 pellets after maintenance.

1. Spray silicone oil for 0.5 to 1 sec in the pellet entrance, then fire 40 to 50 pellets to make the magazine stable.

2. Clean the oil from the chamber using the cleaning rod (with cotton) to complete the maintenance.

**CAUTION:** Always begin the maintenance by returning the hop-up adjustment lever to Normal.
WARNING

1. Do not use over pressure on this product, might cause damage.
2. Do not aim or pull trigger to humans or animals before discharge pressure devices, it might store some rest of pressure inside tank.
3. Discharge any pressure devices if not use and shot until gas tank empty after discharge battery.
4. Do not turn the out barrel hardly, due to turning break system on this product, turn out barrel slowly if try to adjustment hop-up system.
