

TENERGY®

T180 100W Touchscreen Intelligent Balance Charger

Touchscreen Control

Gives you quick and direct access to all of the charger's functions, significantly simpler to use than non-touchscreen balance chargers

Intelligent Maintenance

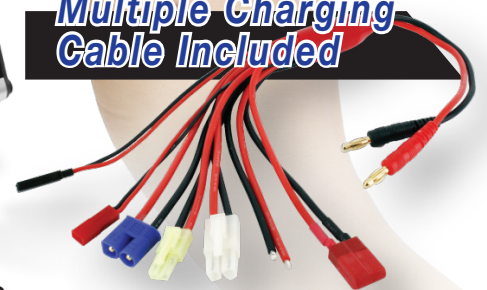

Storage mode keeps your Li-ion/LiPo/LFP batteries in optimal condition when not in use. Cycle function refreshes your NiMH/NiCd batteries to deliver maximum performance

Graphical Display Power

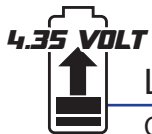

Lets you view your battery's charge/discharge characteristics in a graph, and shows the status of each cell at a glance

Multiple Charging Cable Included

100W High Output

Allows up to 10A charging current / 5A discharge current

LiHV Capable

Charges 1-6 cells LiHV(High Voltage Lithium Polymer)

Digital Power Supply

Turns your charger into a 100W DC power supply to power a variety of electrical/electronic devices

Item No. 03180

Specifications:

Input Voltage	DC 11~18V AC 100~240V
Charge Current	0.1~10.0A
Discharge Current	0.1~5.0A
Charge Power	max. 100W
Discharge Power	max. 20W
Balance current	max. 350mA
Balance tolerance	±0.01V
Charging Capability	NiMH/NiCd 1~16 cells LiPo/LiHV/LiFe/Lilon 1~6 cells
Pb battery voltage	2~20V
Discharge	LiPo/LiHV/LiFe/Lilon 2.0~4.2V/cell
Weight	1.61 lb
Dimensions	5.51 x 5.91 x 2.20 Inches

Available Connectors on the Multiple Charging Cable*

- Tamiya
- Mini Tamiya
- JST BEC
- Bare leads to add an additional connector
- Hitec
- EC3
- Deans Style Ultra T Plug

* Only one connector can be used each time

Package Contents:

- 1 x T180 charger
- 1 x Multiple charging cable
- 1 x 2-6S Balancing board
- 1 x Touch pen
- 1 x Alligator clips
- 1 x AC power cord
- 1 x Instruction manual
