

# OPERATING INSTRUCTIONS

The Silver Edge SDU 2.0 gearbox is easily programmable via the built-in button located inside the magazine well. To switch modes, press & hold the programming button for 2 to 3 seconds and release once you see the Red LED blink 2 times. This will effectively select the next firing mode. Double-clicking the button, or unplugging the battery will reset the mode back the default (Mode 1).

<b>MODE 1</b>	<b>SAFE</b>	<b>SEMI</b>	<b>AUTO</b>
